

Increase the effectiveness and lower the cost of teaching CNA lab skills using a fully-immersive VR experience.

Copyright VRSim, Inc. 2022

What It Is

VR training experiences for Certified Nurse Assistants. Includes 8 scenarios that cover testable competencies in CNA certification exams across the country.

What It Does

Gives students a way to learn and practice patient care in a low-risk environment. Practice at school, at home, or supplementary to lab training.

Why It Works

Facilitate more skills activities with less equipment, lab prep, and costs!

Want to see more? Check out our VRNA video!

Packaged in a compact all-in-one VR headset, VRNA provides a simulated environment where students can practice and develop the skills to required for real-world patient care.
